

Make an Owl out of a Cardboard Tube

You Will Need:

A Cardboard Tube
Some different coloured felt – Light Brown, Dark Brown, Yellow, Black and White
Glue
Brown Paint

TOP TIP! If you don't have a small enough cardboard tube you can take a longer tube and cut it down to size.

Step 1: Fold down the edges of one end of the tube to create a pointy head for your owl

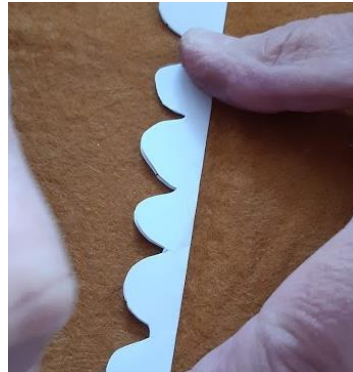

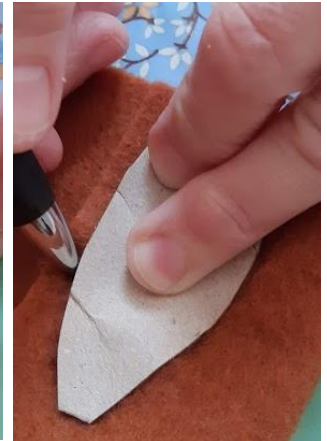

Step 2: Paint your owl's body brown. If you don't have any brown paint you can make brown by mixing **BLUE & ORANGE** or **RED, YELLOW** and **BLUE**.

Step 3: You are now going to need to decide which of your two shades of brown felt you want to use for your wings and your feathers, before we start cutting them out in the next step.

Step 4: Draw a template for your owl's wings onto card. Cut it out and trace around it on your felt.

Step 5: Repeat the process from step 4 with your owl's feather.

Step 6: Cut out your owl's feathers and wings and glue them onto the body.

Step 7: Draw around something circular on your white and black felt. Cut them out and glue them on to make your owl some eyes.

Step 8: Cut a beak for your owl out of yellow felt and glue it on. Your owl is now FINISHED!
