

Make Your Own Giraffe Spoon Puppet

YOU WILL NEED:

A wooden Spoon

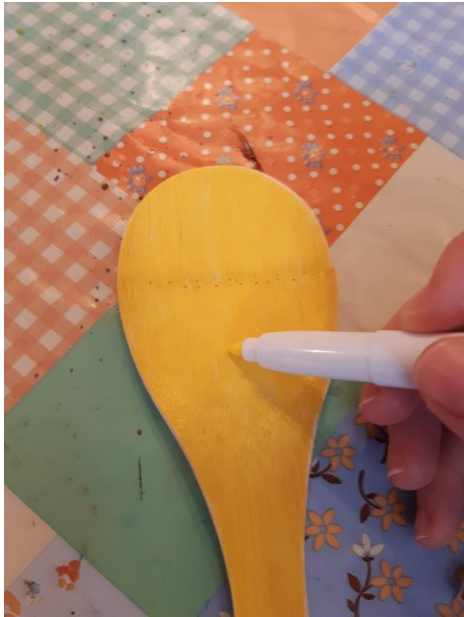

Coloured Pens

PVA Glue & Sticky Tape

Card

Scrap Brown Felt Pieces (optional)

STEP 1: Colour/paint your spoon Yellow

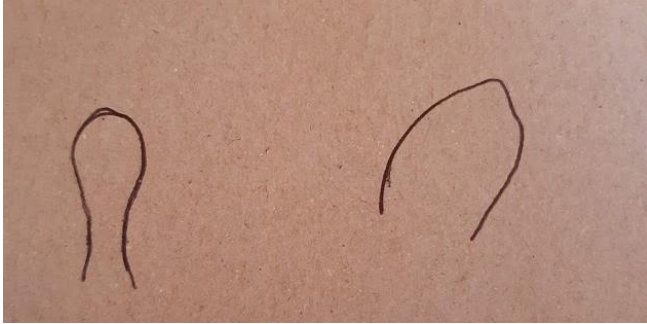

STEP 2: Cut out some brown patches for your giraffe in felt (or alternatively you can draw them on and colour them in.)

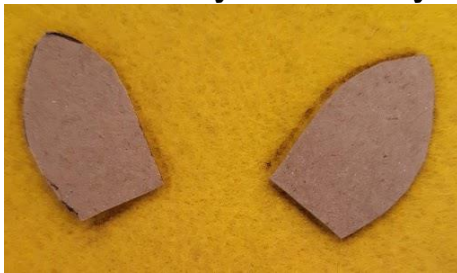

STEP 3: Position your patches and glue them on. Have a play and see what different patterns you can create with your patches on your giraffe!

STEP 4: Draw your template for your giraffe's ears and horns on a piece of card and cut them out (TOP TIP! Cut out one of each first and draw round them. This will make sure they both look the same.)

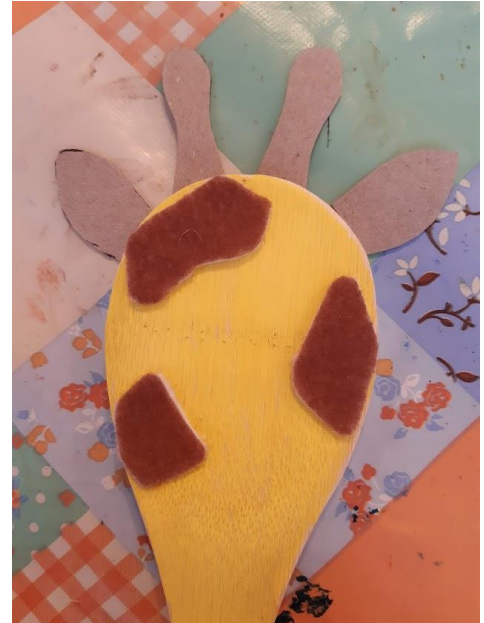

STEP 6: Draw around your ear templates on yellow felt and your horn templates on the brown felt you used for your patches.

STEP 8: Glue or tape your ears and horns to the top of your giraffe's head.

STEP 5: Position where you want them on the top of your giraffe's head.

STEP 7: Glue your felt ears and horns to your cardboard cut outs.

STEP 9: Cut out some eyes for your giraffe on white felt and glue them on.

STEP 10: Draw on your giraffe's features. Give your puppet some eyes, a snout and mouth, and draw on some extra patches if you choose. Your giraffe is now COMPLETE!
